

Twelfth Year, No. 20

GLEICHEN, ALBERTA, THURSDAY, AUGUST 1, 1918

\$1.50 Per Year

Gleichen Attracts the Biggest Calgary Crowd

The Gleichen baseball team invaded Calgary last Thursday night and entertained the All-Star boys of Calgary picked by President Lloyd Turner in a good game, although All-Stars won by a score of 13 to 4. But let a Calgary newspaper tell the story:

It was a real go-er game, with the exception of the third inning, when four hits and a beautiful triple by Red Hainsworth Smith, intermingled with a couple of inferior errors, allowed our local boys to cross the plate nine times, and from then on it was easy sailing for the home boys. Morris Gill was then in the box for the locals, and he pitched superbly, allowing but eight hits and striking out seven men. He was very steady, and Jimmy Flanagan, the old reliable, held him up in great style. The Calgary team was not the best that could have been picked in the city, but the full play of the home crew was real dashy, and the work of Chuck Henderson and Scotty Mitchell was worthy of special mention.

The Gleichen team, who were led by the guiding hand of the genial Doc McIntyre, of the eastern town, are a real good ball team but they had a halcyon season in that fateful third inning, and it took the heart out of them. Whether it was the large number of mistakes or the fierce batting of the locals cannot be told, but they sure were laid in that space. The feature play of the evening was, however, pulled off by Williams, the visitors' infield, who, after starting off second, was switched to second, and it was at the keyhole sack where he made his spectacular stop and throw to get Henderson at first in the third inning.

Herad! After the third inning the Gleichen boys tightened up and played great ball behind Wilson, and although the locals had a ten-run lead, they never lost heart and were always there in the pinch. The visitors looked to make a big rally in the eighth, but could only succeed in getting two runs. Buck Lapp started off with a double, Wilson singled, Babe McCarthy also singled, Lapp scoring; Bob Arthur got safe on a fielder's choice; Wilson scored when Williams hit a hot one to Mitchell which Scotty caught; and Doc Hainsworth ended the inning by tying out to Miner.

The Gleichen boys certainly gave the fans a taste of real baseball in the fifth, sixth and seventh, and had the Calgary boys knocking them right into their hands.

The largest crowd of the season was here in the stand, and the collection for the first time this year, was a real one.

\$25 for Heavier Wheat

D. Binnens, of Quilleyville, offers the sum of \$25.00 to any person anywhere who will leave a bushel of wheat grown this year at the mill, that he will bring to this office. This offer is to stand good to December 1st, 1918, and the Call proprietor is to be the judge. The \$25 is to be given to the Red Cross by the winner. This offer has been signed by Mr. Binnens and the Call's proprietor. There is an excellent opportunity for "Marquette" Wheeler and all other wheat kings to become famous.

Agricultural Meeting Friday

Another meeting of the Gleichen Agricultural Association is to be held tomorrow night, Friday, August 2nd, when important business will be transacted, and it is desired that all interested—every person should be interested—will be present at 8:30. It is expected a very favorable report will be heard from the committees appointed at the last meeting.

Average of Grain Crops

Many are now figuring what the average crop will be for this district this year, and all readily concede that the long continued dry weather will make it the lowest known since grain growing has been carried on to any extent. The lowest estimate we have heard is eight bushels to the acre, but some believe the irrigated fields will bring up the average to fifteen or more. This appears very small to our farmers who are accustomed to reaping three and four times that amount. But we must remember the acre price, while, perhaps, not as high as it should be, is over \$2 per bushel for wheat. Allow the average is only eight bushels, that means the land yields over \$16 to the acre, which farmers in other countries consider excellent for land that cost them much more than is asked for any land in this district.

Gleichen Boys Life With U. S. Navy

The following letter from W. M. Lyle, formerly the East Arrowwood correspondent to The Call will be read with pleasure by many friends:

Editor The Call,—It was certainly enjoyable to receive some copies of The Call and note that East Arrowwood still has its corner in your paper and rarely hope that they will always send in their items.

I am still in training in the Puget Sound navy yard and exceedingly fortunate in being with my friends Ralph Gayles and Felix Jones and Clyde Howe. We form a bunch of our own and enjoy ourselves in the way of our own choosing. We realize that our days of being together are numbered. As we are in different branches of the navy we will be separated in a few days more. It will be painful to be parted from friends that are really so truly friends.

Our camp is located on the sound only a few miles from Seattle. The camp is made up of boys from the North Western States and quite a few from the far west as Chicago. All of our ages will run from 18 to 31. As a whole we are among a first set of boys. We have all classes of boys, just as in civilian life. We have seen of education and experience. There are quite a few men from newspapers, banks, stores and schools. The fellow whose bunk is beside mine was teaching law before enlisting. They are just like we are—have been drawn into the navy because of every branch of civilian life.

Everywhere we go we are welcomed with a friendly greeting. The farther that they open the doors of their houses and receive us in the most friendly way. When a sailor in in Seattle he can have a good time of very little cost to him. The people are more than generous in their treatment to us. I have not eaten a dinner here in a long time for a long time. We were entertained in private homes.

All of our training is interesting to us. We enjoy our boat drill, too.

perhaps, the most of all.

Sometimes we have to parade. We look upon that as hard work and do not receive the pleasure from parading as those do that watch. It is reported that we will have to parade before Pres. Wilson next week in Seattle. I would not mind that so much.

We are receiving good substantial grub, but nothing fancy or very exact. Yet we have all gotten fat or fatter since we came.

I did not realize when the campaign this year was made for the Y.M.C.A. fund, and Gleichen responded so nobly, fully the splendid and extensive work of that organization although I had enjoyed the privilege of a Y.M.C.A. The "Y" is certainly the boys' friend. It brings more cheer to the boys than all other things combined.

We furnish a plenty of clean wholesome amusement. Every night there is something for us. We have musical entertainments, picture shows and lectures almost every evening. On Sunday we have the privilege of hearing helpful sermons. As it is in the front line of a church or a training station the Y.M.C.A. with its comforts will be found.

The Y.M.C.A. buildings in camp have a large selection of choice books, magazines and papers to read. There is also always plenty of free writing material for the fellows to write home.

The Y.M.C.A. is doing remarkable work in Christianizing the boys. It gives it due effective personal work that churches cannot do as they do not have the same influence the "Y" secretaries have. God grant that the Y.M.C.A. be supported by the people here in the future so it may continue its great work.

Wishing you the best of success and hoping East Arrowwood continues to keep in touch with me, I will close.

W. M. LYLE.

Mrs. R. Landall and her sister, Mrs. Barkishofer of Calgary, are enjoying themselves at Banff.

Meers, Branner, Hawthorne and Taylor with their wives and families have joined the camping parties at Bow river.

QUEENSTON

A general meeting of all farmers in the district is called for Saturday evening, August 17th, at 8 o'clock. The purpose of this meeting is to find out how much oats and hay will be needed and to devise means to obtain same from the north country. Every farmer interested should attend. The meeting will be held in the new hall.

The next dance in the new hall will take place Friday evening, August 9th. It is going to be a summer and enjoyable looking for a good time should attend.

As there appears to be a misunderstanding among the people of Gleichen and the north country about the exact location of the hall I would like to say the hall is built on the northwest corner of section 9 on line 19, range 21 on the north passing Mr. Munroe's residence and Aargard's store and hence is located in Milo—not in Queenston—on the east side of Snake Lake. The best and surest way to get there from the north is to take the graded road from the river, near the Cluny bridge to Joe McCall's place then four miles further south to Ben Hall's place on the same road, than go one mile west and you are there.

The Queenston Ladies Institute meet Thursday, Aug. 1st, at Mrs. L. Aargard's.

Miss Dalton of Seattle, is visiting her sister, Mrs. Thomas, in Queenston.

Miss Eula Burk from Iowa is visiting her uncle, James Burk.

Miss Millie Walker has returned from a trip to Edmonton, where she has been visiting her sister.

Pete Archie McLeod has returned from the front and is now resting up at home.

For Sale

The property known as the Victoria restaurant on 4th Ave., Old Glen. The property consists of two lots, 27-foot front and 125 feet deep. Restaurant business doing a thriving trade and is centrally located also includes good ice house and stable. Town water. Apply to

EIGHTEEN MILLION

horses on 6,000,000 American farms are enough grain in the past year to feed 4 million people, or about one-third the population of the United States. These figures, from the Department of Agriculture at Washington, D.C., assume vast importance in the light of the Government's propaganda to increase food production during the war.

THE NILSON

is more economical for the amount of work it will do than horses. Big traction, light weight, simplicity and fuel economy make the NILSON the right tractor for every farm. Examine the cut carefully and you will understand from the drawing how we get Traction by Pull, and not by weight. Many tractors now on the market have good motors, but unless the power developed can be turned into traction without too much loss, the cost of operation becomes excessive.

THE NILSON

Be sure of your service with your tractor. In the rare cases when you need special parts or the help of service men, we are ready to help you. With the NILSON you not only get a good tractor but also our co-operation in making that tractor a paying proposition to you.

War-Time Clothes

Problems of What to Wear Solved by the Government

All women engaged in official war work have the problem of what to wear solved for them by their government, as a rule. There are other women who are just as truly engaged in war work but their performance does not remove them from the generality of women. The question of what to wear is, however, a most important one. The great consideration is to secure suitable material, eliminate as much as possible in the way of laundry work that comes under the head of "luxuries" and never for one instant look dowdy or—what some women abhor almost as much—just "serviceable."

Femininity has set its brains to work and there is a general agreement that the one-piece frock is most satisfactory. If one must have blouses the recommendations are for dark ones with dainty guimpes which can be renewed easily and frequently, suffer comparatively little from their visit to the laundry and always look dainty and fresh. Both time and money are saved by using guimpes. Linen or lawn of good quality is the preferred material. Underwear has likewise been chosen with the same ideas in view. Frills are practically banished. All of these points recommend themselves because they emphasize most attractively the two things dear to the womanly woman—daintiness and femininity for every day and immaculate freshness.

A London tailor is offering a war-time one-piece dress which has many attractive features. The design is patented and all royalties go to the British Red Cross. The frock is a "slipover" and by means of a clever combination of collar, stole and belt the fullness is adjusted about the waist and one frock may be made to appear different each time it is worn provided the "harness" as it is called, is made up in various colors or materials.

The same model can be made up for morning, afternoon and evening wear. Canadian women might design and patent a dress, the proceeds to go to the Red Cross.

BABY'S BATTLES FOR HEALTH

Mothers you can win the battle for the health of your little ones if you will fight it with Baby's Own Tablets—the ideal childhood medicine. The Tablets are a mild but thorough laxative which never fail to banish constipation; indigestion; worms; colds or simple fevers or any other of the minor ills of little ones. Concerning them Mrs. J. P. Hyppell, Causapuel, Que., writes: "Baby's Own Tablets are a great medicine for children. They quickly cured my baby of constipation and I can highly recommend them to other mothers." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Example For Canada

American Authorities Much in Earnest in All Matters Relating to the War

Profiteering is not always profitable in the United States. A New York firm of wholesale dealers was convicted recently of making a greater profit on sugar than was allowed by the federal food board. The firm was ordered to contribute the sum of \$20,000 to the Red Cross, that amount representing the excess profit plus a fine. The food board might have cancelled the firm's license and compelled a complete suspension of business, but decided to impose the penalty instead. The American authorities seem to be very much in earnest in all matters relating to the war.—Woodstock Sentinel-Review.

Ominous—Is there a nice, quiet place?
Eldest Boarder—I'll guarantee you will never be disturbed by the table groaning.—Buffalo Express.

PLEERLESS PERFECTION

The Fence For Real Protection

gives life time service. It is made of the best open heart steel fence wire all impurities burned out, all the strength and toughness left in. Makes the fence elastic and springy. Will not snap or break under sudden shocks or quick strains. Galvanized to prevent rust and the coating will not flake, peel or chip off. Can be erected over the most rocky and uneven ground, without buckling, snapping or sinking. Every joint is locked together with the well-known "locking" lock. The heavy stay wire used prevents sagging and requires only about half as many posts as other fences. Send for catalog. It also describes our farm gates, poultry fencing and ornamental fencing. Pleerless Perfection is rapidly fencing Canada's highways and byways.

Kaiser Indulges In Grim Jest

Talks of His Conception of Christian Duty Towards Wounded and Ill

Emperor William is pictured by Karl Rosner, the correspondent of The Lokal Anzeiger, who is attached to the emperor's suite, as acting as a Good Samaritan toward two British soldiers on May 28. While descending alongside two unconscious British soldiers, he called a medical attendant to administer brandy to the men, to stay and bandage their wounds and to arrange for their transfer to the hospital.

After supper the men's thoughts turned to the British lads and Rosner represents the monarch as saying: "When the enemy is beaten we must care for him with all the greater means given to us. A beaten enemy is no longer an enemy for us. If those over yonder think and act otherwise, that is their affair. We Germans will preserve our conception of Christian duty toward the ill and wounded."

"While waging war we will also treat those wounded in battle so that when this terrible business is over and men again extend their hand to one another, we may be able to recall with a clear conscience and without remorse every day and every act of these hard times."

Minard's Liniment Cures Garget in Cows.

Marvels in Army Surgery

Effective Treatment of Wounded Has Restored Fighting Strength of Allies

Marvels are being performed by the surgeons attached to the various entente armies. By exercising their skill they have restored to the fighting strength of the allied nations each year since the beginning of the war whole divisions of men who, in other wars would have died of their wounds or would have been crippled for life.

The recent gigantic battles, as the result of which more wounded men than ever before have received surgical treatment within a short space of time, have demonstrated the immense strides made not only in surgery, but the methods of removing the wounded from the battle fields and transporting them to hospitals. So effective is the co-operation between surgeons and physicians at the front and those at the hospitals, in the rear that an immensely larger proportion of the wounded recover than was the case at the beginning of the war.

Men whose legs or arms have been fractured by shells now are restored to their regiments in a minimum period of time. This is very largely due to the fact that they receive prompt antiseptic treatment and surgical attention, which prevents blood poisoning and the stiffening of the articulation. Their recovery is rapid in the hospitals behind the lines, where they can be treated under comfortable conditions far from the nerve-racking sound of the guns.

\$1,000.00 Reward Forfeited if Remedy Fails

We hope this notice will reach the eyes of people who are troubled with constipation and bowel trouble. Dr. Hamilton's Pills have been guaranteed to cure any case within three days, and the above reward will be paid for any case resisting this greatest of all remedies.

No prescription ever written could surpass Dr. Hamilton's Pills of Mandrake and Butternut. For years they have been curing the most obstinate cases of constipation, biliousness, headaches and sour stomach. Here is your chance to test Dr. Hamilton's Pills. If they fail—your money back for the asking. Be sure you get the yellow box, and insist on being supplied with only Dr. Hamilton's Pills of Mandrake and Butternut, 25c at all dealers.

Americans Invade St. James' Square

Y.M.C.A. Built Country Club for Officers in Hitherto Sacred Precincts

Another cherished English tradition has been smashed by the advent of America into the war. For two hundred years St. James' Square, London, has been regarded as sacred from all invasion. It lay green and pleasant amid some of the most stately mansions of London, but no one entered it from year's end to year's end save the gardeners, who rolled the turf or swept up fallen leaves.

Today the American Y.M.C.A. has commandeered it and turned it into a first-class country club for American officers, but has done it with gentle hands. The fine equestrian statue of William III. is indeed surrounded by the building of Washington Inn, but not one of the century-old plane trees has been disturbed, and the wings of the structure have been so disposed as to avoid their trunks. The result is that American officers, in the very heart of London, within five minutes' walk of Trafalgar Square, have a place of their own which might be miles in the country.

The Editor's Fortune

A country editor out in Missouri recently retired with a comfortable fortune of \$507.90. His successor explains that the money was acquired by industry, economy, conscientious effort to give full value, indomitable perseverance to give full value, indomitable perseverance, and the death of an uncle who left the editor \$49,999.50.—Buffalo Courier.

Armageddon of the Air

Destruction Airplanes Might Achieve Passes Bounds of Credibility

The terrific destruction which ten or twenty thousand airplanes, acting in concert, might achieve passes the bounds of present-day credibility. With thousands of planes in continuous attack, an island like Heligoland could be blown out of the sea, Krupp munition works simply obliterated, and railways destroyed for hundreds of miles, so that all army supports would be completely ruined. It is America's pride that we gave the airplane to the world. Our inventive and organizing genius is asleep if we do not make of it the most terrible weapon of war the world has ever known.—New York Tribune.

Mother Graves' Worm Exterminator will drive worms from the system without injury to the child, because its action, while fully effective, is mild.

The Place to Decide

Two San Francisco negroes were discussing the possibilities of being drafted.

"Tain't gwine do 'em any good to pick on me," said Lemuel sulkily. "Ah certainly ain't gwine to do any fighting. Ah ain't lost nothin' o'val in France. Ah ain't got any quarrel with anybody, and Uncle Sam kain't make me fight."

Jim pondered over this statement for a moment. "You right," he said at length. "Uncle Sam kain't make you fight. But he can take you where de fighting is, and after that you kin use you' own judgment."—Everybody's Magazine.

Heroism at Sea Is Recognised

Rescue of Crew of Sinking Ship Showed Fine Seamanship

A thrilling story of heroism at sea was disclosed at presentations by the late Captain of the steamship Percision of Quebec and Lloyds to W. S. Roberts, late chief officer of the steamship Lord Erne.

While traversing the Atlantic on February 8, the Lord Erne received a distress signal from the Percision that she was foundering rapidly and the lifeboats had been lost. Notwithstanding the darkness and terrible weather, the captain of the Lord Erne manoeuvred his vessel as rapidly as possible to the sinking ship. Roberts called for a volunteer crew, to which all hands, including the engineer and apprentice, responded. Despite the greatest difficulties, the Percision was boarded and the whole of the 26 members of the crew rescued.

The admiralty authorities, in expressing appreciation of the fine seamanship and courage of all concerned.

Trying Out "Nuance" in Gary

Canada as a Holiday Resort

Canadians Learning More Than Ever Before the Attractions of Home Country

"Summer travel is good in Canada this year, despite the war and some inclement weather," said Mr. W. H. Snell, general passenger agent of the C. P. R., eastern lines, yesterday. "In fact the war has had two outstanding effects so far as Canada is concerned. Conditions with regard to foreign travel have become so expensive and so restricted that Canadians have been almost compelled to learn something about the advantages of the Dominion as a holiday resort. At the same time the ordinary wage earner has had such opportunities for making money that an unprecedented number of working people have been able to indulge their lifelong desire to take their wives and family back to their old homes and see the old folks at home." This latter feature of travel has been very marked during the past year, and is more in evidence than ever this summer. In all parts of Canada thousands of men who have for many years nursed the hope of some day taking their families back to their old homes are able to make the trip this year and they are doing it. The result is good for the country, good for the families, and good for the railways.

"In fact," said Mr. Snell, "one of the most remarkable features of present war conditions is the application of the motto 'Canada for the Canadians.' More of our people are learning to know their own country than ever before, simply because of the expense and difficulty of going abroad. Travel to Europe has been practically eliminated, owing to war conditions on the Atlantic. The increase in rates in the United States and the difficulties surrounding travel from Canada to American resorts has to a considerable extent reduced summer travel from Canada. The result is that thousands of people who in other times have always gone abroad or to the United States for their summer vacations are now spending their holidays and their money in Canada, with distinct advantages to themselves and the country. In fact they are learning now what tourists from all over the world have in years past spent very large sums to come to Canada to see and enjoy."

"In this way, while war conditions have cut off a good deal of foreign tourist traffic in Canada, the same conditions have so increased home travel as to more than offset this. People are visiting our own Rockies instead of going to Switzerland, going to Canadian resorts instead of taking German waters, taking trips over the Canadian lakes and rivers, or to our own coasts instead of going to American ocean resorts. It is a curious effect that war should force Canadians to know their own country, but that is one of the results of the European conflagration, and one that should prove of lasting benefit to Canada."

As a result of these general conditions, Mr. Snell said that passenger traffic in Canada has been unusually good both on the C.P.R. and on all Canadian railways, as well as on the lake and other steamship lines, despite the fact that under war regulations there were no more excursion or special rates. The rates in the United States had gone up so high, with a stringent abolition of all excursion or other special rates, that people were learning more and more to do their pleasure travel in Canada.

"A good deal of this is due to the fact that wages in Canada are higher than ever before," said Mr. Snell. "Where a few years ago men were getting \$12 to \$15 a week they are now getting \$18 and even \$25. Despite increased cost of living people are getting better off and many men are able to indulge their desires to revisit their old homes, and it is surprising the number who are taking this method of spending their holidays."

"Canadians are learning more than ever before the attractions of the Canadian resorts, and the knowledge they are acquiring as a result of the war should mean a good deal in future years in keeping our holiday money at home, as well as attracting tourists from other lands."

It Rubs Pain Away—There is no liniment so efficacious in overcoming pain as Dr. Thomas' Electric Oil. The hand that rubs it in rubs the pain away and on this account there is no preparation that stands so high in public esteem. There is no surer pain-killer procurable, as thousands can attest who have used it successfully in treating many ailments.

Canadian Coal In Distant Climes

Only Canadian Coal Is Being Used By Hawaiians

How Canadian coal is being used in Hawaii is shown in a report received by the department of trade and commerce from E. Bryana, Canadian trade commissioner at Yokohama. The report states that until recently the Island of Hawaii received most of their coal supplies from Japan, with some shipments from Australia. Owing to shortage of cargo space, however, Japan and Australia in 1917 failed to maintain their coal trade with the islands. For the same reason the United States was unable to ship any coal to Hawaii.

"As a result of this famine," the report continues, "the Hawaiian Islands turned to Canada for a supply of coal and were able to buy about 50,000 tons from the Pacific coast coal companies at high prices. It is reported that nearly all the coal used in the island now is of Canadian origin."

A Corner

"Do you and your wife ever have words?"
"I haven't any; she corners the supply."—Baltimore American.

"Grain is in the Bin—Not in the Straw Pile"

THAT'S what C. D. Huntley, of Bremner, Alta., says of the work done by his Sawyer-Massey No. 1 Grain Separator. And that's what every owner of a Sawyer-Massey Grain Separator gets. But 100 per cent. separation isn't the only good thing owners say about Sawyer-Massey Grain Separators. "Not an hour's time lost in twenty days of continuous operation; no repairs," writes C. C. Meir, of Irvine, Alta. "Simple and easy to operate," says Wm. Mason, of Shebo, Sask. And W. Hall, Queenstown, Alta., writes: "Handles flax best of any machine I ever saw."

All these are actual statements—real experiences of owners. They tell you that Sawyer-Massey Grain Separators are strong, durable, efficient—of maximum capacity for their size—simple and easy to operate. No matter what condition the grain is in, the Separator can be adjusted easily, quickly, to secure complete separation. In every way, it's the suitable Separator for the individual farmer.

The No. 1 and No. 2 Sawyer-Massey Threshers differ only in capacity. The No. 1 has more than 31 square feet of separating surface in the straw deck—the No. 2 more than 36 square feet.

Before you buy your grain separator, safeguard your investment by reading the Sawyer-Massey Bulletin No. 326, sent on request. It explains the construction that insures 100 per cent. efficiency. Bulletins describing our "Great West" Separator and Combination Separator are also available.

Sawyer-Massey Gas-Oil Tractors (11-22 to 27-50 H.P.) and Steam Tractors (51 to 76 H.P.) are fully described in Bulletins sent on request.

Disease in Roumania

Epidemic Resulting From War Conditions Decimating Districts

Roumania is negotiating with Germany for large quantities of chemical preparations and other medical materials to combat diseases growing out of war conditions which are raging with disastrous results in Roumanian territory, according to The Berlin Vossische Zeitung.

The population in some districts affected by the widespread wave of disease has been decimated, the newspaper declares.

Immigration in May

During the month of May this year 3,203 settlers entered Western Canada through Manitoba and Saskatchewan. This number is slightly fewer than in the same month of last year, but judging from the value of the effects brought in by the settlers which is more than double the amount of last year, the number of bona fide farmers entering the country is greater this year.

Increasing Bulkheads

New Type of Unsinkable Ship Is Being Built in America

A new type of "unsinkable ship" is being built in America. It has become known that contracts for ten of the vessels have been let by the French government to an American yard. The design is the work of a Frenchman and embodies principles hitherto untried, details of which are being kept secret.

Since the adverse report on the buoyance box system, tried out in the steamer Lucia, the shipping board has not undertaken any new efforts to frustrate the work of submarine torpedoes. Work is continuing, however, on increasing the number of bulkheads in vessels, which was begun some weeks ago.

It has been learned that the Germans had to use three torpedoes to sink the transport President Lincoln because the increased number of bulkheads prevented the last two explosions from flooding sufficient space to sink the vessel.

Ingram's Milkweed Cream

Two Sizes—50c and \$1

You are young but once, but you can be youthful always if you care for your complexion properly. Daily use of Ingram's Milkweed Cream prevents blemishes, overcomes pimples and other eruptions. Since 1885 its distinctive therapeutic quality has been giving health to the skin and youthful color to the complexion. It keeps your skin toned up, soft and clean.

The refined way to banish oiliness and shininess of nose and forehead induced by perspiration, is to apply a light

touch of Ingram's Velveola Souveraine Face Powder, 50c. It also conceals the minor blemishes. Included in the complete line of Ingram's toilet products at your druggist's is Ingram's Zodenta for the teeth, 25c.

A Picture with Each Purchase

Each time you buy a package of Ingram's Toilet Aids or Perfume your druggist will give you, without charge, a large portrait of a world-famed motion picture actress. Each time you get a different portrait so you make a collection for your home. Ask your druggist.

Free Coal

Don't throw your Scrap Iron away. Bring it to us and we will give you Coal or Newcastles.

Coal in exchange for old Iron Weight for Weight.

Don't Delay for now is the time to get in your Winter's Supply
Brown's Transfer

To Coal Consumers

How about that supply of Coal for next winter? Don't you think it would be wise to get it now while the getting is good? If so, just Phone 37, and place your order for the best coal obtainable in Gleichen.

We are sole agents for "Halt and Newcastles lump". Owing to the great demand through the west for Halt Lump we are able to obtain only a small portion of this coal, but have a good supply of Newcastles. This coal is high in carbon and low in ash, and we highly recommend it as first-class burning coal.

Ask those who use it.

Halt Lump and Stow Coal.
Newcastle Coal. Steam Coal.
Halt Coal and Briquettes.

Correspondence to Enemy Countries

Private correspondence for destinations in territory occupied by the enemy—except enemy occupied Belgium and the enemy occupied part of France—may now be addressed direct in the ordinary way instead of being forwarded through an authorized intermediary.

Such correspondence, however, must only deal with private news and will be subject to censorship. Items which contain any information whatever in regard to military, economic or political conditions obtaining in Canada or in any allied countries or which contain undesirable information of any kind will be detained.

By news communications from Canada to destination in territory which has been ceded enemy territory under the Trading with the Enemy Proclamation require a license from the Secretary of State for Canada.

Correspondence intended for destinations in enemy countries, as destinations from enemy occupied territory, or to those destinations in enemy occupied Belgium and enemy occupied France to which correspondence may be forwarded, must still be sent through the medium of Thos. Cook & Son, Montreal, to whom application should be made for information in this connection.

The secretary of the Edmonton Board of Trade in a letter to The Call says that while steps have been taken by the Provincial Government to gather and disseminate information regarding considerable areas of hay available in various portions of the Peace River country and elsewhere in the far north, and the Dominion authorities and railways have satisfactorily arranged the problem of transportation to these points, this does not make provision for the utilization of an enormous amount of pasture and winter feed in territory much nearer, which is apt to be over looked. The Edmonton Board of Trade is glad to assist in helping to work out the problem, and is taking steps to obtain information as to farmers who have plenty of surplus feed and it will be available to anyone requiring it.

P. J. Unbrink is entertaining a lot of Gleichen folks at his bungalow in Banff, which is said to be one of the finest at that well-famed resort. No less than eighteen were there one night last week.

Messrs. Art Walker, Ad. Wilson and R. B. Hayes, with their wives and families, returned last week after spending a short time up at Banff.

LOCAL AND GENERAL

Moore, Lett and Bob McArthur left Friday night and spent Sunday at Banff.

Mrs. S. A. Hall left last week on an extended visit to her parents at Rattle, Man.

Pro. Rupert Hunter and Frank Bates left last Friday for the east with a draft of the Strathcona Horse. Their exact destination was not made known.

'Not a Gleichen boy kicked on Julie's decisions. Taken from Julie this is pretty unusual for visitors', remarks The Herald. A Bassano leader: "That Gleichen bunch is always taking the joy out of life."

There will be no services in St. Andrew's church, at Gleichen, on Sundays August 4th, 11th and 18th, but regular services will be resumed on Sunday, August 25th, when there will be a service of Holy Communion at 8 a.m., and fully evening service at 7:30 p.m.

Bassano—"What do you know about that?" Gleichen liked by 13 to 4 and never squealed once on the sump." Mad Hatter—"They are some spots. When Gleichen liked us 14 to 6 they didn't even chirp."

Volunteer—"Sure. When we kicked Gleichen 6 to 4 all they said was 'We'd like you to do it again.'"

GEO. ANCLAIR
Painting, Papering.
All work Guaranteed.

Leave orders at Brown's Transfer or see me at Gleichen Hotel.

PEOPLES BAKERY

Under New OWNERSHIP

Having purchased the Peoples Bakery from Larkin & Gilson I desire to announce to the public that it is my intention to supply my customers with the very best in bread, cakes, fresh fruit and confectionery of all kinds.

In compliance with the Food Controller's regulations only **Victory Bread**

can be obtained at this store, but customers will find our blend much better than they may expect as we must now use 20 per cent of cereals with every 75 pounds of flour.

I am using a blend of cereals which experience has taught me makes a very nice sweet loaf.

BUY AN IRRIGATED FARM BECAUSE:

Irrigation makes the farmer independent of rainfall, and in some good crops, not occasionally, but every year.

Irrigation makes possible the successful culture of alfalfa, the king of feeders, which means good returns in dairying and mixed farming.

Irrigation means intensive farming and close settlement with all the advantages of a densely populated agricultural community.

Irrigation on the Canadian Pacific Railway Irrigation Lock is no longer an experiment, the years that it has been tried having absolutely demonstrated the success wherever it intelligently applied.

You can buy irrigated land from the Canadian Pacific Railway at prices up to \$50 per acre, with 20 years to pay and the privilege of a loan of \$2,000 for improvements.

(5% interest) no principle after first payment until end of fourth year, reduced interest if settlement conditions are completed and no water rental for first year. Contract can be paid off before maturity if desired.

This is the most liberal offer of irrigated farm land on record. For full particulars apply to

ALLAN CAMERON, Gen. Supt. of Lands
Canadian Pacific Railway, Dept. of Natural Resources, 928 1st. St. E. CALGARY, ALBERTA

Every Farmer Needs a Ford

THE Motor Car is a greater convenience to the average farmer than the telephone, the rural mail or even the grain binder.

The binder which is considered as a very useful implement is rarely used more than a few days during the entire year. The rest of the time it stands idle, taking up space, while the automobile is available for use throughout all seasons, and both day and night.

It is ever ready to run down the lane to the back field or the pasture with a parcel or a message, or take you and your family to town for shopping purposes—or on an errand to the neighbors.

The motor car is called upon whenever anything is wanted in a hurry. It is the most useful implement or convenience for the farm. It helps you conserve your energies and time for productive work and enables you and your family to accomplish more with less energy. You surely feel the need of it. Why not order one today?

All prices subject to our list changes, except trucks and chassis.

Try a block of our Compressed Salt, 50 lbs. for \$11.00. The stock think this is fine dope and almost as good as grass.

"The Busy Stores" **JOHN A. RAMSAY** Gleichen & Cluny

Local and District News

David McBean's new house eight miles north of town is almost complete and is said to be one of the most modern in these parts.

Mr. and Miss Staback, Mr. and Mrs. Geo. W. Evans, Mrs. W. P. Evans and Mr. J. Gibson returned Saturday from Banff, where they spent a week.

E. Y. Poppindinkle, who arrived here about three weeks ago to look over the country, has purchased a farm of generous proportions north-east of town. Mr. Poppindinkle left last Thursday for his home in Missouri and will return shortly with his large family.

A full house greeted "Intolerance" Saturday night and it proved easily the best show ever put on in the Gleichen Opera House, many having since expressed a desire to see it again as it was difficult to follow the four stories at times and quite impossible to absorb all the grandeur of the scenery.

Friday and Saturday Agent J. H. Goodenough and his staff of the Blackfoot Indians their annual treaty money, amounting to about \$4,000. Of this each man, woman and child on the reserve received \$5, the headmen \$15 and the chiefs \$25. The merchants had a great business until about 3 o'clock on Saturday when the red men started their races, which are always good and very exciting.

W. W. Brown is erecting a concrete base and iron fence around his residence on Seventh ave. and leveling up his property. When completed his residence will be the finest in appearance in town, and then it will be up to the town fathers.

ers to see how much they can tax him for his enterprise—such is the way of civilization.

If the Banff business men were real live folk they would advertise their scenery and resort in every newspaper on the prairie.

On Tuesday evening the baseball match between the old rivals, Basano and Gleichen, proved the most exciting game played here for the big crowd that assembled, the score finally showing Gleichen the winner by 6-7. There was some excellent playing by both teams and also some awful playing. The decisions of the two umpires were jested at more than in any game ever played on our diamond, but they were not to be discouraged and save for a few favors by the base man they divided pretty even. Time will not permit of a fair report of the game but Basano scored two in the third and one each in the first, fourth, fifth and sixth innings. Gleichen scored one in the first and third and two in the seventh. It looked very bad for the home boys when two went out in the last of the ninth, just then Bob McArthur made a home-run by striking the ball over the fence, when, to add to the joy of the rooters, a horse latched to an empty buggy, ran off to where the ball disappeared. Then George Macne finished the game by bringing his home with a home-run for himself.
